The committee in charge of the Memorial Day observance makes the following announcement:

The assembly will be on Sixth street between Laurel and Front streets at 9:30 A. M.

The order of march to the cemetery will be in the following order:

1. Brainerd City band.
2. Firing squad from the First Minnesota Regiment.
3. Boy Scouts in uniform.
4. G. A. R. veterans in automobiles.
5. W. R. C. ladies in conveyances.
6. G. A. R. Circle Ladies in conveyances.
7. Veteran detachment on foot.
8. Brainerd Patriotic League marching.
9. Brainerd drum corps.
10. High school pupils.
11. Grade pupils by buildings.
12. Civics societies and citizens.

President S. R. Adair of the Brainerd Automobile club has appointed the following to have charge of the autos which are to convey the members of the W. R. C. and the veterans to the grounds and return: F. S. Parker, chairman, John F. Woodhead and O. A. Peterson.

Twelve autos will be required for this feature of the parade and they are to report in front of the Eagles hall on Seventh street at 9 A. M. sharp on the morning of Decoration Day. It is emphasized that autos must be on time, so as not to delay the parade and it is desired that they mobilize at the point mentioned no later than 9 A. M. and at 8:45 A. M. if possible.

Confessed Negro Murderer Is Burned to Death.

Memphis, Tenn., May 23.—Ell Persons, a negro, confessed murderer of Antoinette Rappell several weeks ago, was burned to death near the scene of the crime.

A mob estimated at from 2,000 to 3,000 saw the death of the negro. When all was in readiness Mrs. Rappell, mother of the dead girl, was taken to the bridge where the prisoner was held and identified him.

In a short speech to the mob she declared she wished Persons to suffer the tortures he dealt to his victim.

Stockholm, May 23.—According to information received here from a Hungarian source a strike has been in progress in all the Budapest munition factories since May 1.

America's Ideas Agree With Ribot War Settlement

(By United Press)
Washington, May 23.—The United States plans shortly to make a formal statement as to their attitude toward the Russian soldiers' and workmen's slogan of "no annexation, no indemnities." While the statement has not yet been revealed it will doubtless take the form similar to that of French Premier Ribot's Paris statement, as the state department let it be officially known that it "sympathizes" with Premier Ribot's remarks.

This means, judging from Ribot's remarks, that the United States favors the return of Alsace Lorraine to France and restitution and indemnities for small nations including Belgium which Germany has ruthlessly run over.

The American statement will be an individual pronouncement of the position of this country although it will be in accord with the general idea of the allies.

POLICE OVERPOWER WOMAN Kills Husband and His Mother and Defies Arrest.

Baltimore, May 23.—After killing her husband and his mother at her home here Mrs. Anna M. Smith, 55 years old, sat on the front steps and kept a throng at bay until overpowered by police.
Mrs. Smith, Jr., had been separated from her husband and had asked the police to compel her husband to let her see their son.
She went to his home and after a short argument shot him with a pistol twice. His mother, Mrs. Lena Smith, seventy-two years old, ran to his side and was shot dead.

CHICAGO TEACHERS QUIT FEDERATION OF LABOR.

Chicago, May 22.—The Chicago Teachers' federation, the center of some dissent in the public school system in the last two years, has severed its connection with organized labor.
John Fitzpatrick, president of the federation, said that the action was necessary because of the ruling of Jacob Loeb, president of the board of education, prohibiting membership of teachers in labor unions.

Minnesota Public Safety Commission to Control Fires

(By United Press)
St. Paul, May 23.—The Minnesota public safety commission will take control of the forest fire situation now devastating rich timber tracts and farmers homes in the northern part of the state. A secret conference has allowed \$6,000 to State Forester Cox to fight fires and ferret out the reports that incendiaries are responsible and arrests have been made with more to follow. It is said that Forester Cox told the commission his investigation led him to believe that most of the fires were of incendiary origin. Rangers are blaming some of the fires to vandalism and are urging severe penalties. Forester Cox has issued an order that no brush, grass, slash or woods shall be burned without first obtaining permission from the state forester.

No fires shall be started except in kitchen stoves or under boilers in property enclosed.
Assistant State Forester Tierney in St. Louis county is today directing the fire fighting.

High Winds Saved Wisconsin Gardens From Heavy Frost

(By United Press)
Milwaukee, May 23.—High winds saved most of Wisconsin's gardens from one of the coldest May nights in many years, the frost doing slight damage. Two days of cold, damp weather will not affect the crops if the sun comes out soon, but otherwise the seeds will rot in the ground.

MINISTRY RESIGNS

(By United Press)
Amsterdam, May 23.—Count Tisas ministry has resigned according to a Budapest dispatch.

North Long lake, Parkerville and other points near Brainerd will appear in a forest fire film staged by Fred Place, former Brainerd man representing the Hearst-Pathe motion pictures. Some of the most wonderful effects in motion photography were secured, said Mr. Place, and the fifteen farmers and a number of girls entered into the spirit of the pictures like veteran actors.

Farmers are shown fighting fires near Fred Parker's cottages, there is a thrilling rescue of a pretty farmer girl by a husky lad, with all the confusion, smoke, flames, and incidents of the real brand of fire. Brainerd titles are used and the film will appear in the weekly news of the Hearst Pathe service and be shown at the Best theatre in three weeks.

Mr. Place visited his mother, Mrs. George M. Peaslee, who lives near Merrifield. In the early days Mr. Place was a member of the Brainerd Dispatch force, later worked on the Minneapolis Journal, then went into photography and is now in motion picture work.

At Fort Snelling he took scenes of the officers training camp and snapped some Brainerd men. Within a few weeks he will be sent to the front in France to take real war pictures there. As a trained newspaperman, his nose for news comes in good service in snapping news pictures for the Hearst-Pathe people.

PHILIPP VETOES MEASURE

Governor Kills Bill for Prohibition in Wisconsin.
Madison, Wis., May 23.—A referendum on prohibition in Wisconsin within the next two years was killed when Governor E. L. Philipp halted one of the hottest wet and dry fights ever seen in the Wisconsin legislature by vetoing the prohibition referendum bill.

He sent his message vetoing the bill five minutes before the time limit on the measure.

The assembly adopted a joint resolution recalling the bill from the governor as the veto message was received. This practically ends the wet and dry fight in this session of the legislature.

The governor had declared the bill should be amended by striking out the provision forbidding the manufacture of liquor in the state on the ground that it would wipe out a \$54,000,000 industry and throw 15,000 persons out of work.

Mr. Cleveland's "Backbone."

In the summer of 1884 James J. Hill had been sizing up the political situation in his part of the country. Mr. Cleveland's name was in the air. Nobody knew very much about him. Mr. Hill went to New York and talked with Mr. Tilden, whom he knew well. They had great esteem for each other. "What about this man Cleveland?" was the question Mr. Hill had to ask. "He is all right," said Mr. Tilden. "He is absolutely honest and is not afraid of anything."

"But has he backbone?"

"Backbone! He has so much that it makes his stomach stick out in front."—From "The Life of James J. Hill," in World's Work.

MISTAKES OF LIFE.

Life is spent in learning how to live. Mistakes are inevitable. If they were not, there would be no growth, no conquest, no new wisdom. The best man is not he who never makes mistakes, but he who never permits them to daunt him, who accepts no failure as final, who rises wiser every time he falls, who has ever the soul's fine courage to begin anew. Learn from your mistakes.

General Barnett, Commandant of the Marine Corps, said to have 5,000 Men Ready and Anxious to Be the First to Fight—Drastic Espionage Measures Necessary in Civil War.

By ARTHUR W. DUNN.

Washington, May 22.—[Special.]—The Roosevelt inclination to say and do things is not confined to Theodore, ex-president. We find it in Franklin D., assistant secretary of the navy. It was at a reception given by the Navy league to the naval officers of the British mission, when several speeches were made, that the Roosevelt character cropped out. Toward the close of the evening Colonel Thompson, the chairman, espied Assistant Secretary Roosevelt away up in the first balcony and called upon him for a few remarks. As he came forward the audience saw a tall, broad-shouldered looking man with movements of an athlete.

Wanted Action.

"I think the time has come for action," said Mr. Roosevelt, facing the audience. "So far we have given the British and French missions nothing but words and again more words. I am in favor of giving them soldiers and marines."

It has been known that General Barnett, commandant of the marine corps, is anxious to lead the first force into France. Mr. Roosevelt says that 5,000 marines are ready to go and that from 15,000 to 20,000 regular soldiers might be sent at once.

The whole address of Mr. Roosevelt breathed an ardent desire for the United States to get into action at the earliest possible moment. "Nearly six weeks have elapsed since war was declared," he said, "and we have done nothing."

A Curious Book.

Congressman Wood of Indiana alluded to a curious book which was published soon after the civil war and which gave in considerable detail examples of the invasion of the rights of citizens who were suspected of having sympathies with the Confederacy. I never heard any one allude to it before until Wood mentioned it in the discussion of the espionage bill to show that severe measures were necessary during the civil war to curb the activities of those in sympathy with the southern states.

Fortunately there is not much sympathy with the enemies of the United States at the present time, and it is not likely such as exists will be manifested to any such degree as happened during the civil war days.

Politics Injected.

As far as possible efforts have been made to keep politics out of legislation, and, although there have been divisions in both the house and senate on important features of various bills, there have been no divisions along party lines. In one of the discussions, however, Senator La Follette of Wisconsin injected a political phase when he said that much of the legislation that had been enacted would tend to prevent the success of the administration in future political campaigns. Senator La Follette has not been in agreement with the administration on many matters that have come up in congress since war talk began.

Advance of Prohibition.

Although no effort is being made to secure the adoption of a constitutional amendment for prohibition at this session of congress because the decree has gone forth that only legislation necessary to carry on the war is to be

CARTER HARRISON.

Former Chicago Mayor
Tenders His Services.

Carter Harrison, former mayor of Chicago, tendered his services to the war department at Washington in person. He was presented to Secretary N. D. Baker by Senator J. H. Lewis and Representative A. J. Sabath. Mr. Harrison told the secretary he would be glad to serve the government in any way he could during the war.

enacted, it is observed that the prohibitionists are active in securing amendments to different bills which will advance their cause. The army conscription bill contains a rather drastic provision against liquor, and the Cummins amendment in the espionage bill is designed to strike a harder blow at the liquor interests than anything that has yet passed congress.

Paying the Price.

Information received in Washington is to the effect that the people have begun to be appalled at the rising tide of prices without any corresponding increase in the earning power of the people. In ordinary times high prices mean prosperity for at least a portion of the people. In wartime high prices seem to mean a severe tax on business, the possible closing of factories and destruction of small business concerns and throwing a multitude out of employment.

Hiram Johnson Heard.

It is not often that a new senator receives such attention as was given to Senator Johnson of California. The former governor of the Golden State came to Washington with a reputation already made. His activities at home, his participation in the Republican convention of 1912 and the fact that he had been on the Progressive ticket with Roosevelt had made him a national character.

In his first speech in the senate, opposing the censorship provision, he sustained the reputation he had previously made and established himself as one of the powerful debaters in a body where the best speakers of the country are to be found.

Writing.

There is no account in the Bible of the origin of writing. Writing is first distinctly mentioned in the fourteenth verse of the seventeenth chapter of Exodus. The connection there implied would indicate that it was not then employed for the first time, but was so familiar as to be used for historic records.

The alien population of New York state is estimated at 3,000,000.

IF KIDNEYS AND BLADDER BOTHER

Take a glass of Salts to flush out your kidneys and neutralize irritating acids.

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it. Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again. Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever. Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.

Symphony Orchestra and the Choral
Club Entitled to Praise for
Their Achievements

EDWIN HARRIS BERGH DIRECTOR

Grand Concert to be Given Friday
Evening, May 25, at the Brain-
erd Opera House

Those who can understand the trend of the times and who are following the efforts of those who can see into the needs of our city will be gratified with the showing of both Symphony orchestra and Choral club next Friday night. The good work being accomplished along lines of musical development by Edwin Harris Bergh is gradually becoming recognized and cannot fail to show encouraging results.

Free instruction in orchestra playing should be given to all children, just as geography, arithmetic, reading and writing are taught. No one can deny the manifold benefits which result from such instruction. Every form of ensemble from a simple duet to full symphony orchestra is practiced and indulged in with no end of possibilities for developing American instrumentalists for ranks of our concert and operatic orchestras. As love and appreciation for the higher forms of symphonic music is spreading, there is a growing need for all the necessary instruments for symphonic combinations. Little by little American trained players have been edging their way into our orchestras and doing creditable work next to the experienced players of foreign birth and training.

Let us hope that the public will understand the situation before long and see into the manifold benefits to be gained through providing our children, not only with the necessary instruments, but above all competent instruction.

Members of the orchestra are as follows:

BACCALAUREATE
SERVICE SUNDAY

At 8 O'clock in the Evening, at the
High School Assembly Room,
School Will Furnish Music

REV. H. G. STACEY WILL DELIVER

The Address and Will be Assisted in
the Services by Other Pastors
Of the City

Next Sunday evening at 8 o'clock the baccalaureate services will be held in the high school assembly room. Rev. H. G. Stacey will deliver the address and will be assisted in the services by other pastors of the city. The school will furnish the music, under the direction of Miss Conrad, supervisor of music.

All churches of the city are invited to join in this service. Chairs will be provided on the platform for all ministers who may be present. No special invitations are sent out for this service other than this published announcement as the exercises are intended to be a school affair and for all.

On Friday and Saturday of this week, an exhibit of the work done in the manual training department, including the mechanical drawings, will be placed in the "show windows" of Henry Linnemans' store. Next week a similar display of the regular class room work of the sewing classes will be exhibited at the D. M. Clark store.

On Thursday afternoon of this week, the Senior class day exercises will be held in the high school assembly room.

On Friday, the state examinations in high school subjects begin, but the state examinations in grade subjects do not begin until Tuesday. Attention is called particularly to the fact that these examinations begin at 8 A. M. A complete program of the examinations is published in order that no mistake concerning time need occur.

Parents are reminded at this time that the schools will not close until Friday, June 1st, and the last week is perhaps the most important week of the school year. Pupils who expect promotion must remain in school until the end of the term. Employers of labor should be careful not to offer inducements to pupils to drop school at this critical time of the year. If a job is given to a pupil under the compulsory school attendance age at this time of year, it is a manifest unfairness to the hundreds of children and parents who comply with the school law although they want jobs during the summer, and is putting a premium upon law violation.

Program for state examinations, May, 1917:

Friday May 25—Commercial geography, 8 a. m.; higher algebra, 8 a. m.; physiology, 8 a. m.; English, 1st year, 10:15 a. m.; Caesar, 10:15 a. m.; Vergil, 10:15 a. m.; physiology, 2 p. m.; commercial arithmetic, 2 p. m.; English, third year, 2 p. m.

Monday, May 28—Elementary algebra, 8 a. m.; Cicero, 8 a. m.; English, 4th year, 8 a. m.; German, first year, 10:15 a. m.; German, second year, 10:15 a. m.; bookkeeping, 2 1/2 hours, 10:15 a. m.; Latin grammar, 2 p. m.; chemistry, 2 p. m.; physics, 2 p. m.

Tuesday, May 29—American history, 8 a. m.; plane geometry, 8 a. m.; solid geometry, 8 a. m.; civil government, 10:15 a. m.; political economy, 10:15 a. m.; zoology, 10:15 a. m.; spelling, 30 minutes, 10:15 a. m.; eighth grade grammar and composition, 2 p. m.; ancient history, to 800 A. D., 2 p. m.; field crops, 2 p. m.

Thursday, May 31—Arithmetic, 8 a. m.; commercial law, 8 a. m.; animal husbandry, 8 a. m.; English, second year, 10:15 a. m.; botany, 10:15 a. m.; geography, 2 p. m.; modern history, from 800 A. D., 2 p. m.

of a Member of British War Council

This is the latest photograph of Lady Curzon, wife of Lord Curzon of Kedleston, who was Miss Hinds, the daughter of J. Munroe Hinds, American Minister to Brazil. She was the widow of Alfred Duggan of Buenos Ayres when she married Lord Curzon. The fact that his first wife, Mary Victoria Leiter, was a daughter of Levi Z. Leiter of Chicago, has made him of particular interest to Americans. Lord Curzon is not only a member of the war council which directs the operations of the British armies, but he is the government leader in the House of Lords.

Fleischer-Gorton

A pretty home wedding was solemnized at M. D. Gorton's Saturday, May 19, the couple being Ray Gorton, son of Mr. and Mrs. M. D. Gorton and Miss Leona Fleischer, daughter of Herman Fleischer of Platte Lake, the ceremony being performed by Rev. Henry Sholtz of Platte Lake, at 7 o'clock in the evening and witnessed by about 80 friends and neighbors.

The bridesmaids were Miss May Gorton, sister of the bridegroom, and Miss Myrtle Fleischer, sister of the bride, and the groomsmen were Guy Gorton, brother of the groom, and George Fleischer, brother of the bride. The flower girl was Miss Margaret Gorton of Brainerd, and the ring girl was Miss Georgene Fleischer, sister of the bride. Miss Laura Young played the wedding march.

The bride was dressed in light blue silk and carried roses. The bridesmaids wore blue and carried carnations. The little girls were dressed in white. After the wedding a grand supper was served and then a dance was given in the big barn where everybody was present. The out of the country guests were Chas. Feins of Ft. Ripley, Will Tuttle of Ft. Ripley and many came from Brainerd. The young couple will make their home on the bridegroom's farm in Platte Lake. The young couple received an abundance of useful gifts.

Women of Brainerd are Charged
With Indifference

A woman who visited in Brainerd recently said to Mrs. Coe, the president of the State Federation of Women's clubs: "The women of Brainerd are perfectly indifferent to the needs of our army, can't something be done to start patriotic work there?"

Is this true, women of Brainerd? Let us prove that it is a libel, by crowding Library hall to its utmost capacity tomorrow afternoon.

Perhaps our reputation for indifference has gone abroad, and other organizations are discussing our sad state. It seemed as if the opportunity to secure the services of Dr. Edie McCullom Jones just at this time was providential, but perhaps she was sent by some human agency, instead of being divinely directed to come to Brainerd. Dr. Jones has been doing some work under the auspices of the National Suffrage Union, and the suffrage forces have turned all of their energies into national aid work. Possibly they heard of the indifference of the Brainerd women, and sent Dr. Jones to wake us up.

Let us prove that we are already awake, by making a real mass meeting of the all-women's meeting in Library hall tomorrow. This meeting was planned before we knew that Dr. Jones' services were available. She will, no doubt, have a good, practical message for us. She was born and brought up in Kansas and she knows what wealth increased crop production has brought to that state, therefore she is vitally interested in this feature of the national aid work. But she does not confine her efforts to this work. She is magnetic, inspiring speaker, and a half-hour cannot be better spent than by listening to her message. Her talk must be limited to a half-hour, as there is much practical work to be started at this meeting. Remember the day and the hour—tomorrow, at three-thirty P. M.

CAN SURPLUS FOOD
BUT USE JARS AND
THE CANS WISELY

Don't have an empty preserving jar in your home next fall. There may be some difficulty in securing cans and preserving jars. Reserve regular tight-sealing containers for vegetables, concentrated soups, meats and fish. Concentrate products so that each jar or can will hold as much food and as little water as possible. Put up jams, jellies and preserves in glass jars sealed with cork or paper and paraffin. Pack fruit juices in ordinary bottles. Don't can anything that can be kept just as well dried or in other forms. Dry navy and mature Lima beans for winter use. Produce in your garden lots of cabbage, potatoes, and root crops that can be kept for the winter without canning.—U. S. Department of Agriculture.

Declare War Turns
Young People's Minds
to Religious Subjects

(By United Press)

Dallas, Tex., May 23.—The world war has prepared the youth of America for religious thoughts and instruction the board of education declared in its report to the General Assembly of the Presbyterian church yesterday.

"There is now a thoughtfulness and a spiritual receptivity among students which was absent in the days of ease and quietness," the report said. "Traditions and conventions no longer satisfy. They are perhaps only beginnings of the fierce desire, of which we hear across the sea, to strip away the husks and get at the kernel of reality; but at least students are more accessible to earnest messages of the truth and to the burning challenge to service."

"They know that world tasks confront them—that a new order is being instituted. Titanic spectacles of heroism electrify them."

The board of education, which was formed in 1819 in Philadelphia, recommended that its centenary be celebrated next year in that city. The General Assembly will also be asked to act on a recommendation that the education and college boards be consolidated.

The report said 845 ministerial candidates were aided during the past year with a total outlay of \$81,202 and that the total business of the board was \$214,802. The educators reported progress in their fight to have bible instruction introduced as a part of the course in public schools.

Soft Toned Bells of China.

The natives of China use large bells of their own make in many of their temples and monasteries. I have noticed all through Japan and China that the tone of the monastery and temple bells is very soft and smooth, due to the superior quality of the material used in their manufacture and to the absence of iron clappers, the result being a marvelous softness and mellowness of tone. The bells are never swung, being always suspended in a fixed frame, and the sound is produced by striking them on the outer edge with a wooden mallet. This makes the soft tones which are so delightfully melodious.—Consular Reports.

Great Help.

"My children are very fastidious about their eating. Sometimes I envy the mother birds." "Why so? They have to work very hard to feed their young." "Yes, but there's no kicking about this and that. The youngsters don't know what they are going to have for dinner until it is halfway down their throats."—Louisville Courier-Journal.

BRAINERD MAN GIVES EVIDENCE

His Testimony Will Interest Every Brainerd Reader

The value of local evidence is indisputable. It is the kind of evidence we accept as true because we know we can prove it for ourselves. There has been plenty of such evidence in the Brainerd papers lately, and this straightforward testimony has established a confidence in the minds of Brainerd people that will not be easily shaken.

William Bourquin, carpenter, 913 Seventh St., Brainerd, says: "I suffered severely from kidney and bladder trouble. The kidney secretions were too frequent in passage and I had backaches and pains through my sides and loins. The trouble kept me from working and gave me no end of annoyance. Doan's Kidney Pills soon relieved me in every way."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Bourquin had. Foster-Milburn Co., Props., Buffalo, N. Y.—Advt.

INCREASED EXPENSES HIT RAILROADS HARD

That railroads are being hard hit by increasing cost of wages, fuel and other materials became evident from testimony introduced before the Interstate Commerce Commission a few days ago by the Northern Pacific in the petition for a fifteen percent increase in freight rates. The largest single item of increased operating expense is chargeable to the higher cost of materials amounting to over five million dollars.

Testimony introduced before the national rail governing body shows that the Northern Pacific's increased operating cost for one year, based on conditions as they exist today, total \$12,297,433.62. These figures, however, do not take into consideration further increases that are likely to occur.

In the items of increased operating expense the road's evidence showed that wage increases made necessary by the Adamson law reach the enormous sum of \$4,160,994.08. Additional expense for fuel, based on present prices, amounts to \$2,381,247. Other items include increased taxation.

It was shown in the company's figures before the Interstate body that the increases in expense amount to 20.65 percent of the total 1916 freight revenue. Even by granting the proposed fifteen percent increase in freight rates there will not be sufficient increase in revenue, based on last year's business, to overcome the additional expense, as the advance will increase revenues by only about \$9,000,000.

Bread at 15 cents for a 24 ounce loaf has made its appearance on the Minneapolis retail market, and is the first time in the history of that city. An advance in the price of flour brings the change and the increased cost has caused the bakers to prepare to discontinue making the smaller sized loaves. This is the second advance in bread in a year, last year a 12 ounce loaf retailed for five cents and now a 16 ounce loaf retails for 10 cents and the 24 ounce loaf at 15 cents.

The burning of Star Island Inn at Cass Lake is a serious loss at this season of the year, particularly, not only to the proprietor but to the city and to the tourists who make that section for the summer months. It was located on the government island by that name in Cass lake, which is one of the many beauty spots of northern Minnesota.

British Royalty is Unshaken by Russian Revolution

BY LOWELL

(United Press Staff Correspondent.) London, May 3 (By Mail).—In the days immediately following the abdication of Czar, one frequently heard this: "King George next." One seldom hears it now. A revolution like Russia's clearly is not in the public mind.

In the first place the people of England have no particular fault to find with their king. Reference to his German blood are commonplace, but this is regarded as his misfortune rather than his fault and there is none to say he has not played up to his part as an Englishman.

Any dissatisfaction that many have been felt at any time with the management of England's part in the war was not directed against the king. Incidentally, it would be hard to find any dissatisfaction on that score since the new advance on the west front has begun.

It is the same with social unrest. Sufferers from economic conditions—war-made or otherwise—do not lay the blame at the door of the Buckingham Palace. The expense of maintaining the English throne lays little burden on the people. Whereas confiscating the Czar's lands meant adding an estate as large as all Germany and almost as rich in resources to the public wealth, such a confiscation in Great Britain would make only an imperceptible increase. For years it has been a boast in England that royalty is supported here at less expense than in any other important country.

Persistent inquiry reveals that the labor forces of this country have no thought of anti-monarchical outbreak, political or otherwise. Labor leaders have their minds focused on industrial problems of the present and, even more, on the great problems that must be faced when the armies are demobilized.

They will tell you that if anybody is agitating the abolishment of hereditary monarchy in England it is not the workers. The monarchy, they agree, plays too little part in the relations between employees and employers to justify any objections on their part. Some even suggested that an anti-monarchical demonstration may be fomented by quite other forces. These other forces are represented—in this view—by the general term Capital. Capital, it is argued, would fall in with a program calculated to divert public attention from industrial trouble. Big employers would sacrifice the throne to save their profits, according to this argument.

On the other hand there are those who believe that Capital and the Nobility are so intermingled, so many capitalists being nobles and so many nobles being capitalists, that Capital would not be guilty of so short-sighted a policy. Remove royalty and you remove the nobility, they explain, since there can't be the latter without the former.

"Capital will give up its titles before it gives up its profits" is the answer of the earnest industrial reformer to this. He insists an industrial revolution is coming and that it cannot be diverted by any agitation against the throne.

PROPER SEEDS

There is Still a Fair Supply Quickly Available.

(National Crop Improvement Service.)

A great many of our farmers will not plant their full acreage this year on account of a supposed shortage of seeds. We are informed by the wholesale seedsmen in the country and the various experiment stations in the states, that there is still a moderate supply of pedigreed barley and certain kinds of corn on hand for quick shipment.

Potato is going to be the hardest seed to obtain. However, in most instances, potatoes can go in last. The advantage of a state Potato Growers' Association was never more apparent than now.

WILSON INSISTS ON CENSORSHIP

President Desires Power to Control Publications.

LETTER CREATES SURPRISE

Decision of House Republican Caucus to Oppose Any Restrictions on Newspapers Causes Chief Executive to Send His Views in Writing to Chairman Webb of Judiciary Committee.

Washington, May 23.—Decision of House Republicans in caucus to oppose any newspaper censorship provision in the pending espionage bill was followed by a letter from President Wilson to Chairman Webb of the Judiciary committee reiterating it is imperative congress grant censorship powers to deal with the few persons who cannot be relied on to observe "a patriotic reticence about everything whose publication could be of injury."

"I have been very much surprised," the president wrote, "to find several of the public prints stating the administration has abandoned the position which it so distinctly took, and still holds, that authority to exercise censorship over the press to the extent that that censorship is embodied in the recent action of the house of representatives, is absolutely necessary to the public safety."

"It, of course, has not been abandoned, because the reasons still exist why such authority is necessary for the protection of the nation."

Some May Do Mischief.

"I have every confidence, the great majority of the newspapers will observe a patriotic reticence about everything whose publication could be of injury, but in every country there are some persons in a position to do mischief in this field and whose interests or desires will lead to actions on their part highly dangerous to the nation in the midst of a war. I want to say again it seems to me imperative powers of this sort should be granted."

The house espionage bill carried a censorship provision, but the one by the senate did not and this was one of the differences which sent the measure to conference, where it has been discussed for more than a week without an agreement.

The president's letter caused some surprise, because many members of congress had understood for several days no further attempt was to be made at present to put through any such provision.

Sentiment in the senate is strong against censorship and unless the conferees agree on a very mild form it probably will not be accepted there.

Representative Webb announced on receipt of the president's letter that he would wage a determined fight in behalf of the censorship amendment.

WOULD REVOKE HER NEUTRALITY DECREE

Rio Janeiro, May 23.—President Braz has sent a message to congress recommending the revocation of the decree of neutrality in the war between the United States and Germany.

Congress is expected to accept the recommendation by a large majority. The message declares that the order to the Brazilian authorities enjoining the observance of neutrality was only intended to have effect until congress met. It continues:

"Today, in consideration of the fact that the United States is an integral part of the American union, in consideration also of the traditional policy of Brazil, which has always been governed by a complete unity of view with the United States, and finally in consideration of the sympathies of a great majority of the Brazilian nation, the administration invites congress to revoke the decree of neutrality."

RAIL HEARINGS COMPLETED

Carriers Want Authority to Penalize Speculators.

Chicago, May 23.—Hearings of evidence on which the interstate commerce commission will be expected to determine whether the reconignment and diversion tariffs proposed by the railroads are equitable have been completed after two weeks of questioning. It is said a further hearing may be held some time in June.

The roads seek to establish a diversion rate of \$2 a car and a reconignment charge of \$5 a car, in the hope, their attorneys say, that these tariffs will penalize speculators in various commodities to such an extent as to remove what the roads charge is an abuse of the reconignment privileges they now enjoy.

Montana Negro Will Hang.

Butte, Mont., May 23.—Sherman A. Powell, negro, was convicted of first degree murder for the killing of J. H. Montgomery, a negro, on a Great Northern train diner, April 8, near this city. The verdict was unanimous for death by hanging.

MAXIM HAS DEVICE TO THWART DIVERS

New York, May 23.—Hudson Maxim announced that he had perfected a device which will make ships immune from the dangers of the submarine.

He said that torpedoes even when fired at close range and striking their targets would explode harmlessly against the hulls of their intended victims.

The inventor asserted that the invention soon will be demonstrated by the government.

"The invention is practical for every type of vessel," he said. "It can be applied within a few months to the hulls of ships already constructed. The only change necessary will be slight enlargement in their beams."

"My device is of solid material and encircles the entire ship from bow to stern. It in no sense resembles a screen or net."

ARNOLD KALMAN IS DEAD

Pioneer Business Man of St. Paul Passes Away.

St. Paul, May 23.—Arnold Kalman, seventy-two years old, a resident of St. Paul for thirty-five years, died suddenly at the home of his son, C. O. Kalman.

Vice president of the Chicago Great Western railroad in its early days, the first president of the Union Stock Yards bank, now the Stock Yards National bank, and the first president of the Minnesota Packing and Provision company of South St. Paul, Mr. Kalman was influential in many activities which were factors in the growth of St. Paul.

Associated with A. B. Stickney, Mr. Kalman did much for the development of the Union stock yards in South St. Paul and was prominent in the up-building of South St. Paul as a packing center.

Mr. Kalman was born in Germany in 1844, going to New York as a youth. He served during all the Civil war as an officer of G company, Forty-fifth New York volunteer infantry. He located in St. Paul in 1882.

LOOKING FOR THIRD MAN

St. Paul Police Clearing Up Dunn Murder Case.

St. Paul, May 23.—Following the double confession of Frank McCool and Joe Redenbaugh that a trio of hirling murderers entered the J. F. McQuillan home April 26 to take the life of Mrs. Alice M. Dunn, Chief of Police John J. O'Connor announced that the third suspect, still at large, is John Doyle, alias Tacoma Johnnie, yeggman, burglar and highway robber.

It was John Doyle who stood at the foot of the stairs, guarding against attack from below, while Redenbaugh, with McCool a few feet behind, shot and killed Mrs. Dunn.

GUARD WILL BE DOUBLED

Large Increase Provided for Minnesota Militia.

St. Paul, May 23.—Minnesota's national guard contribution to the world war will be virtually doubled, according to Washington reports, which Captain W. F. Rhinow, military secretary to Governor Burnquist, confirmed.

The amendment, based on war department orders, comes on the heels of the resumption of recruiting by the First Minnesota Infantry and First artillery regiments, and means, Captain Rhinow said, a big addition to Minnesota's part in the war.

MEASURE TO CONTROL FOOD

Second Administration Bill Introduced in the House.

Washington, May 23.—The second of the administration's food bills, revised to create an emergency agency to control under the president's direction distribution and sale of the necessities of life, was introduced in the house by Chairman Lever of the agriculture committee.

The first bill aims at stimulation of production and calls for a general survey for the country's food resources.

The second measure places the widest powers of control over necessities of all kinds, including price fixing, in the hands of the committee.

Consideration of the food measures will be hurried as much as possible in congress.

UNITED STATES PROTESTS

Objects to Germany Detaining American Citizens.

Washington, May 23.—Protest to Germany against the detention of American citizens was made by the state department through the Spanish government. The department has received positive information Americans are held in Germany and has asked for a full and definite statement of the imperial government's attitude concerning their departure.

It is pointed out this government always has acted promptly on applications of German subjects to leave the United States.

TRENCH RAIDING ONLY DIVERSION

Virtual Inaction Continues on Western Front.

CONSOLIDATING THEIR GAINS

British Troops Are Preparing for Another Offensive West of Bullecourt. After Which Heavy Blows Will Be Struck at the Drocourt-Queant Switchline.

London, May 23.—Although on both the British and French fronts virtual inaction continues, with trench raiding by the British and violent artillery duels between the French and Germans, it is not expected these conditions will long prevail.

The British offensive on the Arras front cannot be deemed to have ended until once more they have thrown their strength against the 2,000 yards of the Hindenburg line still held by the Germans west of Bullecourt and straightened out their line for the heavy blows that are to come against the Drocourt-Queant switchline, on which the Germans are placing dependence to ward off advance by their enemies eastward.

Last reports had the British consolidating the gains made along the Hindenburg line and with these completed the expectation is another of the great battles soon will be in full sway.

Attacks Prove Too Costly.

Probably finding their counter attacks against the French around Moronvilliers too costly the Germans did not renew their efforts to regain the lost ground.

Instead they engaged with the French in violent artillery duels in the regions of Vaucourt, the California plateau and east of Chevreux, not forgetting to throw numerous shells into the already devastated town of Rheims.

A noticeable diminution of the fight along the Isonzo front of the Austro-Italian theater has set in. Only one attack by the Italians is reported here. According to Vienna the Italians attempted to advance, but were stopped by the Austrians.

On the Trentino front the Austrians are keeping up their heavy bombardments and infantry attacks. According to Rome all attacks in this region have been repulsed.

Halo and Corona.

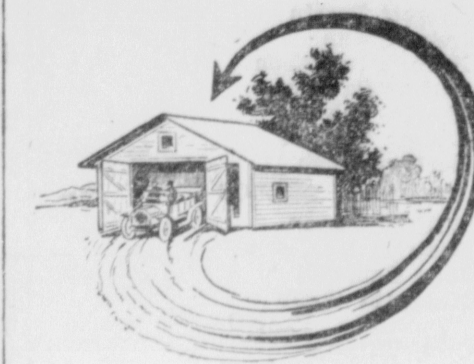

By halo is meant the large circle or parts of circles about the sun or moon. A halo occurring after fine weather indicates a storm.

By corona are meant the small colored circles frequently seen around the sun or moon. A corona growing smaller indicates rain; growing larger, fair weather.

RUSSIA WILL REMAIN LOYAL TO HER ALLIES

Washington, May 23.—Foreign Minister Tereshtenko of Russia, in a cable note to the state department gives assurances on behalf of the new ministry that Russian democracy is inspired with a spirit of solidarity with the United States and like America is carrying on the war to secure the freedom of nations and lasting peace.

"By direction of the ministry of foreign affairs," the communication says, "I hasten to say how highly the whole Russian democracy is inspired with the sentiment of full solidarity with the great republic which, true to its traditions of liberty, has espoused the cause of the coalition for the defense of justice and right."

"I am glad to find that those lofty principles which were so eloquently formulated in America are striking a warm unanimous echo in free Russia, now mistress of her destiny."

ENJOYED HIS VISIT HERE

Count Tarnowski Reaches Vienna After Uneventful Voyage.

Rotterdam, May 23.—Count Tarnowski von Tarnow has arrived here after an uneventful voyage from the United States. Count Tarnowski, whose ambassadorship as representative of Austria-Hungary to Washington ended before it began, was accompanied by Admiral Paul von Hintze, dismissed German minister to Peking.

The count declared his visit to the United States had been most enjoyable.

RECEIVES PATRIOTIC TIP

Wisconsin Man Gets Letter From Senator Husting.

Washington, May 23.—Senator Husting of Wisconsin writes a lesson in patriotism to a German-American constituent, E. John Wehmhoff, in Burlington, Wis. The senator says:

"I believe your reasons and your conclusions are from the German, not the American, standpoint."

"Germany is now an enemy of the United States, which means that she is your enemy, my enemy, our enemy."

"When the status of our relations with a foreign country is once fixed as that of war, then the time for argument has ceased and there is no longer any room for controversy between citizens upon that question, which, for the time being—that is to say, during the pendency of the war—is a closed and not an open one, and for the sake of your peace of mind, as well as in justice to yourself as an American citizen who does not desire his loyalty questioned or to have his honorable reputation permanently impaired, you should respect, obey and support the mandate of your country in the spirit of true and devoted American citizenship."

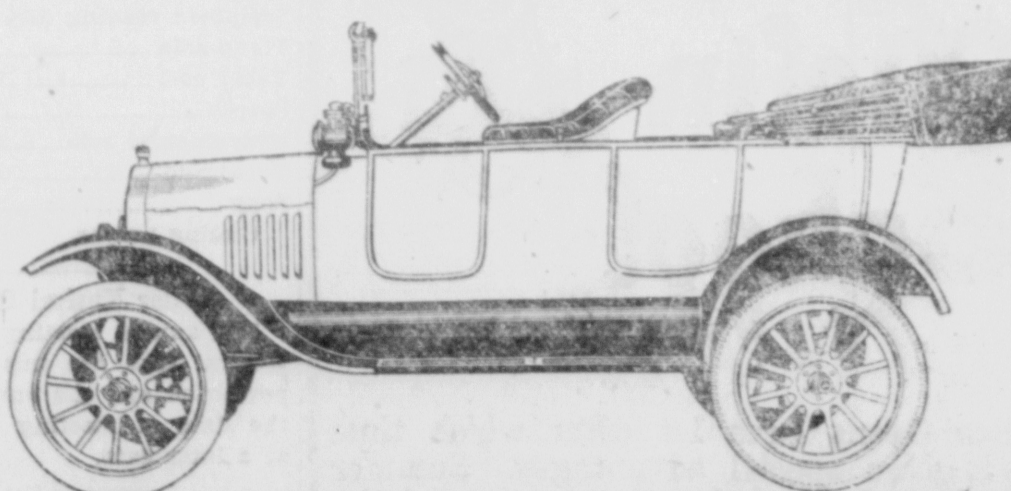

Rose to the Occasion.

Quakers are peaceful and opposed to violence, but when an emergency crops up they may be relied upon to rise to the occasion, as did one of their number who was a ship's captain and lay at anchor in a foreign port. Espying a piratical looking fellow coming up a rope over the side of the ship, he said, "Friend, if thou wants that rope thou can have it," and he cut the rope, letting the marauder down to a watery grave quickly and quietly.—Philadelphia Ledger.

MRS. A. L. ERICKSON DIED

Passed Away at Her Home in Long Lake, Funeral to be on Thursday Afternoon

Mrs. Martha Erickson, wife of August L. Erickson, died Tuesday evening at her home in Long Lake. She was born in Bergen, Norway, in 1857. She came to the United States in 1886 and had lived 18 years in Nokay Lake. She leaves a husband, August L. Erickson, and the following children: Andrew Brown of Britt, Iowa; Jacob L. Brown, of Bemidji; Mrs. Anna Pederson, of Brainerd; Oscar L. Brown of Brainerd; Mrs. Ellen Russell of Minneapolis; Martin L. Brown, of Aberdeen, S. D., and Carl Brown at home.

She was a kind Christian mother, a good neighbor and beloved by all who knew her. The funeral will be held from the Long Lake church on Thursday afternoon at 2 o'clock, Rev. A. Sorenson, pastor of the Brainerd Norwegian-Danish Lutheran church officiating.

The sympathy of the community is extended the family in its sad bereavement.

MRS. JANE LEMIRE DEAD

Leaves a Husband, Abraham LeMire, Was the Mother of Fifteen Children, 12 Survive

Mrs. Jane LeMire, age 68, wife of Abraham LeMire, died from a complication of diseases. She had been sick for some 38 years. She leaves a husband and 12 children, the latter being Frank of Aitkin, Louis, George and Fred of Brainerd, Mrs. Angeline McCullen of Aitkin, Mrs. Rose Munger of Norcross, Minn., Mrs. Mary Martin of Mathgate, N. D., Ed, William and Odell of Brainerd, all of whom are here in Brainerd; Mrs. W. J. Brooks of Elliott, Iowa and Mrs. Walter Constan of Kellogg, Idaho, who were sick and unable to come and attend the funeral. Three children are dead.

The family had lived a year in Brainerd and thirty years in the state. The funeral was held on Wednesday morning at 9 o'clock from the Catholic church. The sympathy of their many friends is extended the family in its bereavement.

REGISTRATION CARD QUESTIONS

Read carefully before you go to the registration table. Here you see what will be asked. Study the questions. Prepare the answers in your mind. Questions will be asked for you to answer in the order in which they appear on this paper. These questions are set out below with detailed information to help you answer them.

Do not write on, mark, or otherwise mutilate these instructions. Do not remove them. They should be carefully read so that you will have your answers ready when you go before the Registrar.

All answers will be written on the Registration Card in ink by the Registrar, who should be careful to spell all names correctly and to write legibly.

1. Name in full. Age in years—This means all your names spelled out in full.

State your age today in years only. Do not regard additional months or days. Be prepared to say "19," or "25," not "19 yrs. 3 months," or the like.

2. Home address—

This means the place where you have your permanent home, not the place where you work. Be prepared to give the address in this way: "232 Main Street, Chicago, Cook County, Illinois;" that is, give number and name of street first, then town, then county and state.

3. Date of birth—

Write your birthday (month, day and year) on a piece of paper before going to the Registrar, and give the paper to him the first thing. Example: "August 5, 1894."

If you do not remember the year, start to answer as you would if anyone asked you your birthday, as "August 5th." Then say "on my birthday this year I will be (or was) — years old." The Registrar will then fill in the year of birth. Many people do not carry in mind the year they were born. This may be obtained by the Registrar by subtracting the age in years on this year's birthday from 1917.

4. Are you (1) a natural-born citizen; (2) a naturalized citizen; (3) an alien; (4) or have you declared your intention to become a citizen (specify which)

(1) If you were born in the United States, including Alaska and Hawaii, you are a natural born citizen, no matter what may have been the citizenship or nationality of your parents. If you were born in Porto Rico, you are a citizen of the United States, unless you were born of alien parentage. If you were born abroad, you are still a citizen of the United States if your father was a citizen of the United States at the time you were born, unless you have expatriated yourself.

(2) You are a naturalized citizen if you have completed your naturalization; that is, if you have "taken final papers." But you are not a citizen if you have only declared your intention to become a citizen (that is, if you have only "taken out first papers"); in the latter case you are only a "declarant."

You are also a naturalized citizen if, although foreign born, your father or surviving parent became fully naturalized while you were under 21 years of age, and if you came to the United States under 21.

(3) You are a declarant if, although a citizen or subject of some foreign country, you have declared on oath before a naturalization court your intention to become a citizen of the United States. Receipt from the clerk of the court of the certified copy of such declaration is often called "taking out first paper." You are not a declarant if your first paper was taken out after September 26, 1906, and is more than 7 years old.

Capt. Clarke Henry Compliments the Men on the Good Turnout at Gardner Hall Tuesday

MANUAL AT ARMS INSTRUCTION

To Follow Soon, Squad to Drill With Old Springfield and Supply of Krag Rifles

The Patriotic League drill squad military drill Tuesday was well attended, some 40 men being in the ranks and Capt. Clarke Henry complimented them on the turnout. Recruits added to the ranks were Leonard Smith, Arthur Koop, Leslie Purdy, Milton Mahlum and Charles Geminier. The drill lasted an hour and a half and was carried on by Lieutenant Colquhoun assisted by Private Wm. Nelson, under the supervision of Capt. Henry.

It is expected to have a supply of old Springfield and some rifles from the Brainerd Rifle club for the manual at arms instruction. Capt. N. M. Green of Duluth has promised to visit the drill squad in the near future. Steps are being taken to affiliate with the state organization.

DIAMOND DOPE & OTHER SPORTS

Minot fans may circumvent the North Dakota anti-Sunday baseball law by paying 55 cents for a bottle of pop and witnessing a baseball game as a side feature.

That suggestion is seriously considered by the Minot association since state officials caused arrests at the first Sunday game attempted by the Northern league teams, last Sunday. Under the North Dakota law Sunday baseball is legalized but admission may not be charged.

Philadelphia came out from under and Falkenberg has at length brought victory to the Athletics banners when the Athletics won 3 to 1 from Cleveland at Cleveland. The Athletics scored eight hits off Morton and had no errors. They made nine hits of "Falky" and had one error to the credit.

Brainerd will no doubt revise its lines and Dr. I. C. Edwards hopes to present a better method of attack and defense at the Sunday game with Ironton. The range is confident of "Beking" Brainerd and will play with blood in their eyes from the very jump-off.

The battery for Brainerd Sunday will be Gourd and Tanner and for Ironton Lane and Schmidt.

WAR PICTURES AT BEST

Start Today With Scenes From Somme Offensive, Big Guns in Action, Official Pictures

Every Wednesday commencing today the Best will show official war pictures. The first runs today and pictures conditions in the allies' camps at the Somme offensive. Dug-outs are shown and the method of covering with foliage to fool the air-men. Trenches are revealed in all their detail. Barbed wire entanglements, aeroplanes scouting, the start of a battle, the firing of small pieces, trench mortars, big guns, aerial torpedoes, etc., is shown, with a glimpse of women working in the ammunition factories.

A search of the German trenches after a charge, the discovery of wounded and prisoners, their march back to camp and other features are revealed. The pictures were taken regardless of weather and very good scenes are shown.

WASTE PAPER DEPOT STARTED

Community Plan of Saving and Marketing Waste Paper Starts on Thursday, May 24th

AUSPICES CHAMBER COMMERCE

Scales and Baler Have Been Supplied, Paper Will Be Shipped in Carload Lots

The community waste paper depot in the Fitzer building on Front street will be open to the public Thursday and Friday and a man will be there to weigh and mark paper as it is brought in. Scales and a baler have been supplied and parties who have paper which they wish to ship with the car, later may bring their stock there and have it weighed and listed.

Owing to the fact that there is an embargo on waste paper at points where it has been decided to ship to, it will not be sent out until early in June and for this reason, the larger shippers, those who have considerable amount of paper baled and ready, are requested not to bring it to the depot until further notice is given. The smaller shippers, however, will be given opportunity to have their paper made ready for the car. The depot will be open at 9 A. M. and paper must be securely tied in bundles and those who bring it must assist in the work of weighing and listing it.

Parties who expect to bring paper to the depot tomorrow and next day will do well to notify the secretary at Phone No. 155.

TRIP AROUND WORLD

Large Passenger List Gathers at the Union Station at Methodist Church Last Night

The trip around the world given last night gathered a large passenger list at the First Methodist church union station. Boats or automobiles made regular trips and went flying through the sandy zones of some of the north side streets, successfully dodging torpedoes, submarines, etc.

The first stop was made at the home of O. Skauge, representing Japan, where young ladies in Japanese costume served the first course of the supper, rice soup and crackers.

From there the steamers made the next section of the route and carried their quota of passengers to Africa, the home of A. J. Loom. A colored girl opened the door. Mr. Loom was to have blackened his face according to the program of the ladies, but was kept busy serving mountain high plates of sandwiches, fine coffee, rich cream and jelly, that he never had a chance to change color.

From Africa the crowd was carried to Boston, the home of H. C. Zierke, on the south side. The rooms were in colonial style and the attendants were attired like Puritan matrons and girls. Baked beans and brown bread were served.

From Boston the passengers were shipped to Paris, the home of Mrs. A. M. Thompson. A gentleman in dress suit welcomed all. The house was nicely decorated. The girl waiters talked French and the voyagers arrived at Washington.

Another whirl of cars and the voyagers arrived at Washington, D. C., the home of Judge J. H. Warner, where ice cream and cake were served. It was a happy entertainment and over 150 took the tour, all given under the direction of Methodist Ladies' Aid society.

NOTICE

To owners of property fronting on streets now proposed to be paved with concrete and situated in the Second ward, that a meeting will be held at the Chamber of Commerce this evening, May 23rd, at 8 o'clock at which discussion of this improvement is invited.

SPOKE IN FAVOR OF BRIDGES

Representative Hilding A. Swanson Addressed County Board at Walker

BENEFITS THIS COUNTY

Counties Have Power to Build Over Waterways Dividing the Counties

Attorney Hilding A. Swanson, representative of Crow Wing county, was in Walker when the county board heard a proposition of securing a bridge across the Crow Wing river to connect Staples and Brainerd. Although these two towns are not in Cass county, the road between the two traverses a large portion of Cass county, and the bridge would be the link in a highway extending from Duluth to Fargo on what will be probably be designated the Black Diamond Trail.

Representative Swanson aided in the passage of the bill which made possible the building of such a bridge and at the request of friends addressed the board, setting forth the advantages to be gained by Cass county in connecting up with this road by means of the bridge.

Representative Swanson explained that counties can issue bonds at not to exceed 1/2 of one per cent of the assessed valuation of the county to build across waterways dividing the counties.

Boxing Game Wreckers are First to Howl

BY H. C. HAMILTON, (United Press Staff Correspondent.)

New York, May 22.—When Gov. Whitman succeeded in killing the Frawley law permitting ten round no-decision bouts in the state of New York he accomplished something that may serve to elevate the game to a decent standard, but he immediately called down on his head the wrath of the very men whose work he had done most to bring the game into bad favor with Whitman.

Harry Pollok was surprised and Dan McKetrick was dumfounded, yet there was nothing so staggering to the game than their act in bringing charges recently against Fred Wneek, recent champion of the state boxing commission. Evidence which was brought out there, the unbecoming dislike of Wneek by Pollok and McKetrick and many other things showed as nothing could have the state of the game in New York.

Recent bouts in New York, under the protection of a no decision clause in the Frawley law, have been criticized so strongly in the newspapers that it is easy to believe the governor doubted if such a thing as a real boxing match ever was staged under the Frawley law.

It was stated in Albany after the passage of the bill under protest of the very men who voted for it, that it would be necessary in "decency" to repeal the Frawley law again next year. This is wrong. It won't be necessary nor right.

The proper thing for lovers of real boxing to work for would be a new boxing law that will permit referee's decisions when bouts are over. No matter if six round, ten round, or forty round bouts are to be sanctioned. There never should be another law that will permit bouts, but rob them of their only sustaining influence—the decision.

polled to defend his doubtful lightweight championship in bouts where a decision was to have been given he either would not have fought or he would not have been champion. There would not have been the arguments that were certain to deal a death blow to the game. Carl Morris and Fred Fulton never would have held their rough-house fight. Johnny Kilbane never would have been in disrepute. A thousand things that have happened would have been prevented.

The way to correct it is to put the provision for a decision in the next boxing law.

ORDINANCE NUMBERED 286

An ordinance regulating licenses in the city of Brainerd.

The city council of the city of Brainerd do ordain: Section 1. It shall be unlawful for any person, firm, or corporation to engage in the business or occupation described in Section 1 of this ordinance shall before engaging therein pay to the city treasury of the city of Brainerd the sum of ten dollars, for each vehicle used in said business taking a receipt therefor and file the same together with a written application for a license to engage in said bus or jitney traffic with the City Clerk of the City of Brainerd, who shall present said receipt and application for said license at the next meeting of the City Council.

Section 2. Any person, firm, or corporation desiring to engage in the business or occupation described in Section 1 of this ordinance shall before engaging therein pay to the city treasury of the city of Brainerd the sum of ten dollars, for each vehicle used in said business taking a receipt therefor and file the same together with a written application for a license to engage in said bus or jitney traffic with the City Clerk of the City of Brainerd, who shall present said receipt and application for said license at the next meeting of the City Council.

Section 3. If a majority of all the members of the City Council present and voting shall vote in favor of said license, the City Clerk shall thereupon issue to said applicant a yearly license to engage in said business or occupation described in Section 1 of this ordinance. If a majority of said members of said City Council, present and voting, vote against granting such license, then no license shall be issued therefor.

Section 4. This ordinance shall in no way repeal or modify any ordinance of the City of Brainerd regulating licenses of said city, or licenses heretofore or hereafter granted under ordinance Number Ninety-five and amendments thereof.

Section 5. Any person offending against any of the provisions of this ordinance shall upon conviction thereof before the Municipal Court of said City be fined not less than twenty-five (\$25.00), nor more than fifty dollars (\$50.00), and in default of payment of such fine be committed to the City Jail not less than fifteen (15), nor more than thirty (30) days or until such fine shall be paid.

Section 6. This ordinance shall take effect and be in force from and after one week after its publication. Passed May 21st, 1917.

REVENUE BILL TO HIT PEOPLE

Makes Everybody Realize That We Are at War.

IT WILL COST US HEAVILY

Debates on This and the Espionage Measure Brought Out a Great Deal of Constitutional Talk—Much Opposition to That Section That Increases Second Class Postage Rates.

By ARTHUR W. DUNN.

Washington, May 21.—[Special.]—Discussion of the war revenue measure has brought home to a great many interests that the United States is engaged in a giant undertaking. While the action of President Wilson and congress in declaring a state of war was received with loud acclaim and approval, it was not until the war revenue bill came before congress that the business interests and the people as a whole realized what the war meant in dollars and cents.

Wars in this day are not conducted on an economical basis. The war has already cost the nations engaged heavily, and the United States has gone into the cost problem at the beginning in a manner which shows that the people must pay and pay heavily for the part which this government will take in the great contest.

Much Constitutional Talk.

The war legislation has furnished an opportunity for a great deal of constitutional talk, particularly in the senate. In the house expediency has governed rather than arguments as to the powers of congress to enact certain laws. The espionage bill in the senate furnished a theme of much constitutional discussion. There are many profound lawyers in the senate, and they cannot allow points involving the rights and privileges of the people under the constitution to go unchallenged even in these critical times.

Horrible Examples.

A great deal of the discussion of the revenue bill was devoted to the provision which largely increases the postage rates upon second class matter or publications. It was observed that the men who defended the extraordinary increase generally took a half dozen different publications of the country and held them up as "horrible examples" of what they called abuses. The same publications and in many cases the same issues of such publications have been used in both house and senate when propositions were under consideration to increase the second class rates. It has been rather difficult to convince legislators that the whole publishing industry of the country should not be gauged by a few isolated cases and made to pay extraordinary war taxes on that account.

Power Means Responsibility.

The most powerful committees of both senate and house are those which deal with revenue. This has been the case from the beginning of the government. As a consequence most members of the house seek places on the ways and means committee, and senators strive to get on the finance committee. But a great deal of responsibility goes with the power which these committees wield. Probably at no other time in the history of the government has there been such great responsibility laid upon the members of these two committees as in the preparation of the bill designed to raise \$1,800,000,000 additional revenue to carry on the war. A part of this responsibility consists in meeting the criticism which has followed the action of the committees in imposing the taxes.

Congestion in the Departments.

Most of the departments of the government have been much crowded for room on account of the expanding business of the government. This is accentuated during wartimes when a great deal of additional help is necessary and no room available where men can work. Every bureau of the war and navy department is now crowded to such an extent that the officials and clerks interfere with one another and good results cannot be obtained.

For many years there has been a demand for additional public buildings in Washington, but one delay has followed another and at the present time the congestion is deplorable. And what makes it more difficult is the fact that additional accommodations cannot be secured immediately, and this overcrowded condition will last for several months before relief can possibly be obtained.

Household Calisthenics.

The Terre Haute woman rounds out her arms by dusting chairs, moving rugs and brushing down the stairs and sweeping the floors. She gives herself a finer carriage and a steadier gait by carrying wood and coal to the domestic hearth.—Terre Haute Tribune.

TREASURY GIVES OUT ESTIMATES

Outlines What Is Anticipated From Liberty Loan.

MINNESOTA SUM \$43,000,000

Wisconsin's Figure Is \$32,000,000, North Dakota's \$10,000,000, South Dakota's \$9,500,000 and Montana's \$9,500,000—Amounts Represent Only the Minimum Expected.

Washington, May 23.—What every section of the country is expected to do in unloosening its purse strings for the Liberty loan was officially announced by the treasury department. The figures made public are the minimum; the maximum, it is hoped, will be an oversubscription.

Minimum tentative allotments by states, estimated on the same basis, show the approximately proportionate share for Minnesota at \$43,000,000.

Coincident with the announcement of the tentative estimates of what each section should take the federal reserve board announced it virtually has placed at the disposal of every bank in the United States, member and nonmember, the powerful machinery of the reserve system to assist in making the loan an overwhelming success.

In making public its tentative allotments of bonds the treasury department has adopted two bases of estimating, a \$2,000,000 issue and one of \$2,500,000, the latter designed to meet the possibility of any one section failing to take the amount estimated.

Tentative Allotments Stated.

The tentative allotments, minimum and maximum, by reserve districts, follows: Boston, \$240,000,000 to \$300,000,000; New York, \$600,000,000 to \$750,000,000; Philadelphia, \$140,000,000 to \$175,000,000; Cleveland, \$180,000,000 to \$225,000,000; Richmond, \$80,000,000 to \$100,000,000; Atlanta, \$60,000,000 to \$75,000,000; Chicago, \$260,000,000 to \$325,000,000; St. Louis, \$80,000,000 to \$100,000,000; Minneapolis, \$80,000,000 to \$100,000,000; Kansas City, \$100,000,000 to \$125,000,000; Dallas, \$40,000,000 to \$50,000,000; San Francisco, \$140,000,000 to \$175,000,000. Among the allotments for other states are: Wisconsin, \$32,000,000; North Dakota, \$10,000,000; South Dakota, \$9,500,000; Montana, \$9,500,000; Washington, \$17,500,000; Oregon, \$10,000,000.

These figures represent only the minimum expected from each state, which is expected to top the amount by as many hundred per cent as possible.

QUOTA FOR THREE STATES

Government Fixes National Guard Units for Northwest.

Washington, May 23.—Minnesota's complete national guard quota as ordered by the war department follows: One brigade headquarters; three regiments of infantry; two regiments of artillery; one battalion of engineers; one headquarters train; one engineer train and two battalions of heavy field artillery to be assigned to army corps.

North Dakota—Two regiments of infantry assigned to Thirteenth division and one field hospital company and one ambulance company attached to army corps.

South Dakota—One regiment of infantry for coast artillery support, one field hospital company and one ambulance company attached to army corps and one regiment of cavalry not to be organized now.

PURCHASES LIBERTY BONDS

Canadian Pacific Railway Invests One Million Dollars.

New York, May 23.—The Canadian Pacific railway has subscribed for \$1,000,000 of the Liberty loan bonds, it was announced. Another million-dollar subscription came from the American Brass company.

John D. Rockefeller also has subscribed for another \$5,000,000 of the bonds, it was announced. His total subscription of \$10,000,000 is the largest recorded from a single individual.

Finland Seeks Freedom.

Helsingfors, Finland, May 23.—A congress of the Swedish political party, representing a majority of Finland's wealthiest and most influential classes, passed a resolution favoring a complete separation of the grand duchy of Finland from Russia.

Compromise on Mail Rate.

Washington, May 23.—A compromise on the proposed second class mail tax, so as to make it from 1 1/2 cents per pound in the first parcel post zone to 8 cents in the eighth zone, was agreed on by the house ways and means committee.

MANY PROTESTS AGAINST TARIFF

Everybody Wants to Let the Other Fellow Pay.

ADOPT "KITCHIN METHOD"

This Is to Shut Your Eyes and Vote For Any Measure That the Administration Wants Passed—Others Have to Account to the People at Home and Listen to Their Advice.

By ARTHUR W. DUNN.

Washington, May 23.—[Special.]—Protests are piling up against features of the tariff bill, and congress has been implored to do nothing to stop the business of the country. A great many members have adopted the "Kitchin method." This is to shut your eyes and vote for the measure, and the chairman of the ways and means committee first gave voice to it. But many other members of the house do not feel the same way.

It might be all very well for quite a large number of men with big majorities behind them, but the man who has to work hard to get elected is obliged to give some attention to protests from home.

Was Commander in Chief.

In the opposition which was made to the provision allowing Roosevelt to raise a division and go to France it was said by a number of men, "Roosevelt commanded a regiment all right and probably could command a brigade, but could he command a division or an army corps?"

Well, it may be recalled that the American people elected him commander in chief of not only the army, but the navy. He held that position for seven and one-half years.

Of Course There's a Difference.

It must, of course, be remembered that there is a difference between the commander in chief as mentioned in the constitution and a military commander in the field. No one could imagine that Lincoln would have been as good a field commander as many of the generals he named and particularly the successful men he finally selected. Probably no one would have regarded Cleveland, Harrison or Taft as ideal military commanders of armies in the field and fighting. And this is said with all due deference—Woodrow Wilson is no doubt a better commander in chief at home than he would be of an army in France. And of all the presidents since General Grant it is probable that Roosevelt would be considered the best soldier. At least he is the idol of many of the young men of the land.

Bringing in the President.

The position of the president regarding selective conscription was frequently brought into the discussion of the bill raising an army when it was under consideration. Congressman Sims of Tennessee asserted that he did not think the proposition for selective conscription originated with the president, but with the general staff and war college. Congressman McCormick of Illinois asserted that the president was the first person to mention selective draft and recommended its adoption. Then Congressman Meeker of Missouri entered the debate and put this question to Sims:

"Has not the gentleman during his past career literally taken the hide off from the fellow that did not stand by the president?"

"I have," replied Sims, "and I expect to take some more the same way."

A little later Sims, after he had related how he told his people he would vote against conscription, said, "I am going to vote as I said I would before election, and without which declaration I could not have been elected."

Selective Conscription.

In talking about conscription it develops that for a long time at least compulsory service in the army will be by selection and an effort made to utilize men who are not necessary in walks of life that would be fully as useful at home. Men with dependent families and relatives, men whose services are needed on the farm, men whose work in factories and shops is necessary to carry on production, will be excused from conscription until it becomes more necessary to utilize them than at present.

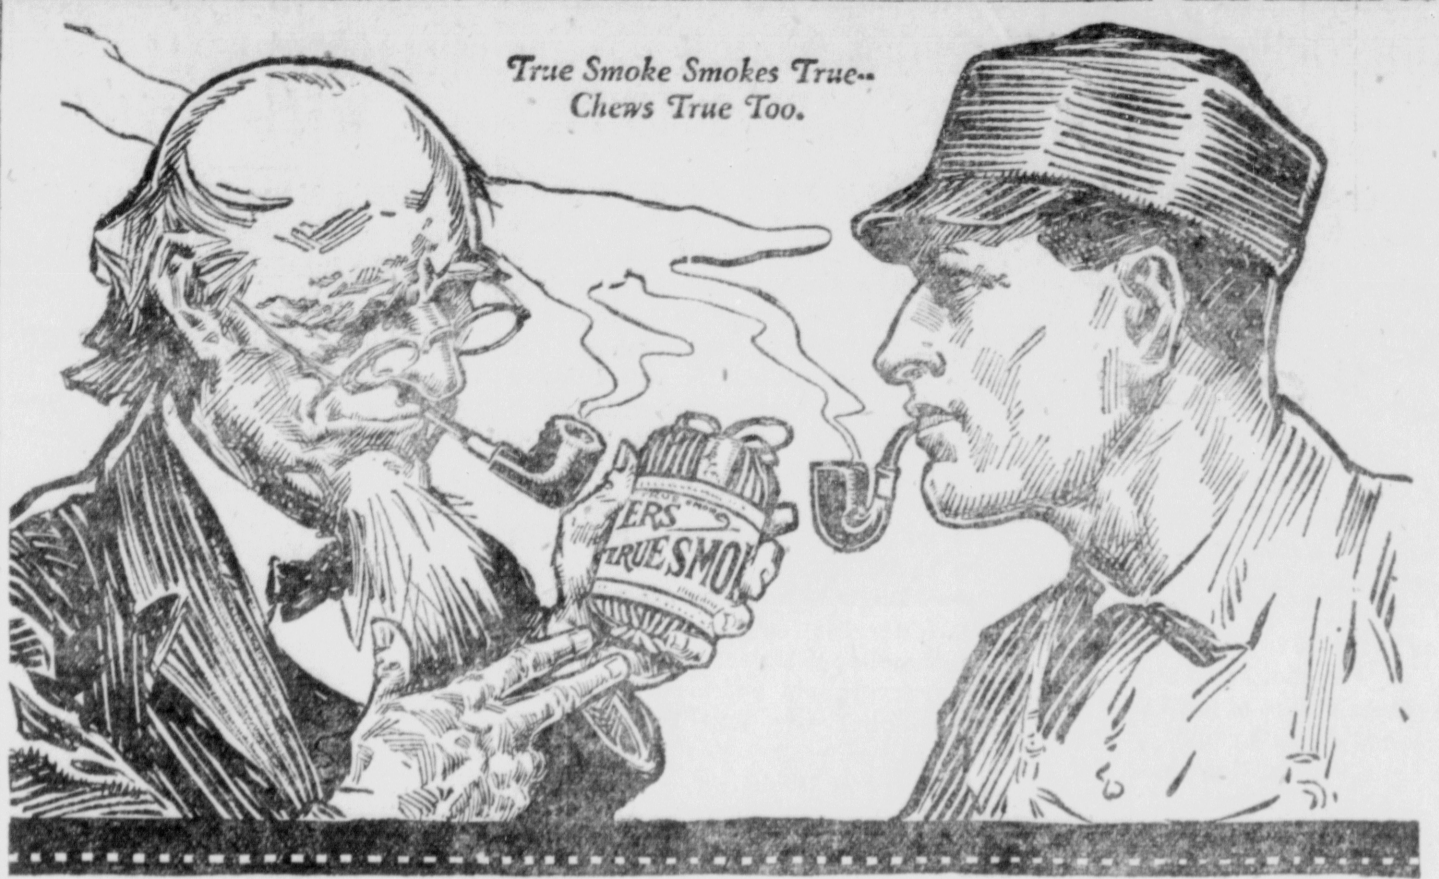

Says the Rich Should Pay.

Congressman Oldfield of Arkansas, a member of the ways and means committee, has rather pronounced views upon the subject of taxation. "The rich people should pay for this war," he said. "Many of them are responsible for the war, and they ought to pay. No man ought to want to retain more than \$100,000 a year income. All above that ought to be cheerfully given to the government in times like these." No doubt Oldfield will find a vast majority of people agreeing with him.

Senator Stone's Comment.

The finance committee was packed full of publishers fighting the increase on second class rates. Senator Stone came in long before any other senators and took his seat. He looked around and smiled.

"The smartest lot of fellows in the country," was the comment of the Missouri senator, who frequently berates the newspapers and periodicals in the senate.

40 Years Ago I started smoking True Smoke

I've seen many different brands come and go—tried several of them myself—but I always come back to True Smoke. It's the best all-round honest smoke I've found. No bite or parch; no after effects; no regrets.

Any tobacco that has stood the test for 40 years must be mighty good tobacco. That's exactly what you'll find True Smoke—mighty good tobacco. Ask your friends, they know.

Only in five states of the whole Union can we find tobacco good enough for True Smoke. This choice tobacco is blended only by experts; aged only by nature. It is rich, fragrant, fully seasoned tobacco; the best for either chewing or smoking. Try it. True Smoke is sold in 10c flat or round bags and in 50c fiber containers. If you can't get it from your dealer, send us his name and address with 10c and we will see that you are supplied—at once.

TARS TO BUY LIBERTY BONDS FOR MOTHERS.

Great Lakes, Ill., May 22.—Sailors at the United States naval training station here probably will buy \$1,000,000 worth of Liberty bonds.

Under the plan offered it will be suggested to each recruit that he purchase a \$100 bond in favor of his mother or some other member of his family. Arrangement has been made for installments of \$2.85 a month.

ARE FOOLISH TO SUBMIT

Illinois Judge Advises Women to Shoot Wife Beaters.

Peoria, Ill., May 22.—Judge T. N. Green in circuit court told Mrs. Eichorn she ought to have killed her husband when he beat her and taken a chance of acquittal by a jury. In addition to the advice he granted her a divorce from her husband, Dr. William A. Eichorn, a dentist.

"I have little sympathy for a woman who will permit a man to beat her as this woman has," said the court. "She ought to have used a gun on him. And I would like to see the Peoria county jury that would not acquit her."

Not Interested.

"A smooth tongued stranger offered to let me be his partner in a proposition that would make me rich in six months."

"Well, did you accept his offer?" "No. I got rid of him by saying the doctors had given me only six months to live and there was nobody I cared about leaving a fortune to."—Birmingham-Ara Herald.
